### **DETAILED ACTION**

1. According to preliminary amendment filed on Sep. 27, 2008, the applicants have canceled claims 1-25 and furthermore, have added new claims 26-62.
2. Claims 26-62 are now pending in the application.

### ***Election/Restrictions***

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 52-56, 61, 62 and in part 26-51, 57-60, drawn to compounds of formula (I), a process for manufacturing these compounds and methods of treatment using these compounds.

Group II, claim(s) In part 26-51 and 57-60, drawn to A process for manufacturing compounds other than compounds of formula (I) and methods of treatment using these compounds.

4. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

There is no common core which in the Markush Practice, is a significant structural element shared by all of the alternatives; see PCT Administrative Instructions Annex B Part I (f) (i) (B) (1).

5. A telephone call was made to the applicant's attorney, Mr. Mark A. Foley on May3, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include (i)

an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention. It is of note that if applicants elect group II, they must provide the structure of the compound since this group is subject to further restriction based on the structures (common core ) of the compounds.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charanjit S. Aulakh whose telephone number is (571)272-0678. The examiner can normally be reached on Monday through Friday, 8:30 A.M. to 5:00 P.M..
